*T*he four years in high school have each seen us through four seasons of activity outside and in the classrooms. From the fall registration to the summer graduation, each season lends its flavor to the students' work and play.

So with Nature's four annual scenes as a background for its yearbook, the Senior class of 1946 presents the activities of its last year, hoping to capture the spirit of each season in order to preserve the memories of high school days.

Dedication

With deepest appreciation and gratitude, we the Class of '46 wish to dedicate our *Reveille* to you, Kathleen Goetten. Because of your perseverance and constant guidance, we have been able to achieve notable success in our activities throughout our Senior year. . . . Your untiring efforts as *Courier* adviser have been greatly responsible for the high standard of workmanship of our school paper, and your excellent management will long be remembered by those who worked with you. . . . As our History teacher, you have embedded in our minds the responsibilities that we as citizens and future voters of our country must hold. . . . The principles which you have endeavored to instill in us, both spiritually and mentally, will tend to act as guides for us throughout our lives.

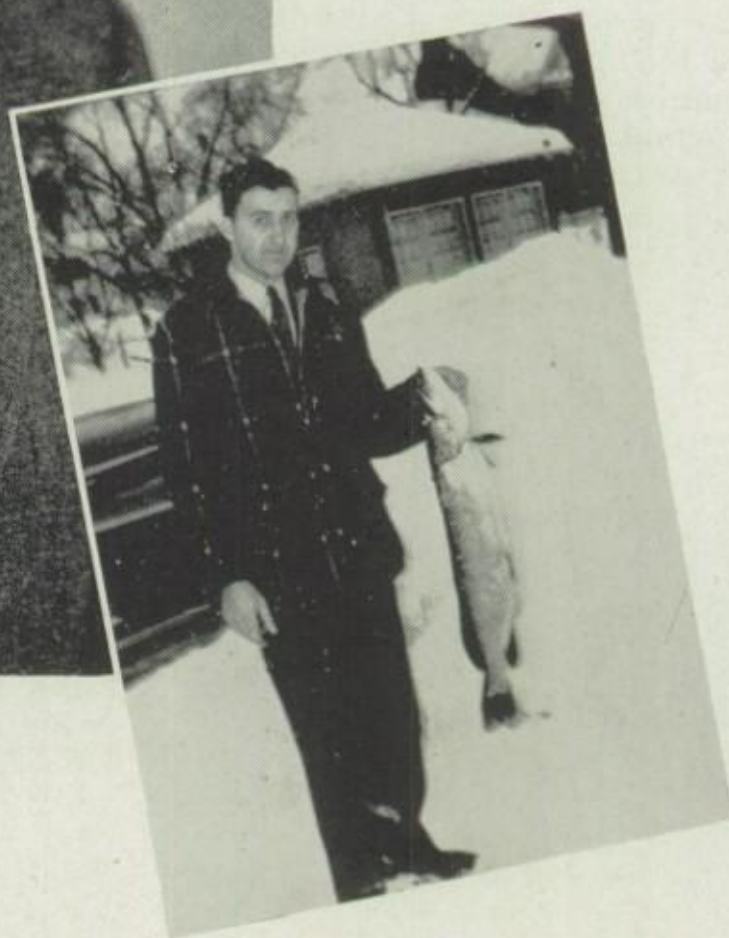

Miss Kathleen Goetten

MR. LOUIS J. CALLAN
Vice-Principal

Appreciation

For the last fifteen years, Mr. Louis J. Callan has been an integral part of WHS faculty, having organized the present industrial arts program, acted as vice-principal, and guided the Safety Patrol as adviser.

Because of his outstanding record as a teacher at WHS, Mr. Callan was selected to head the Woodworking Department at Buffalo State Teachers' College, his Alma Mater—a signal honor, indeed.

We have come to know Mr. Callan as a true sportsman—on the tennis court, in the field, as well as in his relationship with the students through classes, clubs, and attendance records.

We will long remember Mr. Callan for his work done on student play productions. Many curtains would never have gone up if Mr. Callan had not willingly aided in constructing attractive stage sets.

We appreciate the many things you have done for the school and especially for the Class of '46. We thank you, Mr. Callan, and wish you success in your new responsibilities.

Senior Message

Interest in games, especially winning them, is keenest for those who participate. Making a touch down or scoring a basket or a homerun furnishes a thrill which really makes the game worthwhile. The player's success in the great moment when he scores is made possible by certain factors which are too easily and too often overlooked. Rigid training and constant drill form the very foundation of athletic success. Coaches have ever insisted that the players do only those things which would put them and keep them in trim to win.

Thus, in the greater game of life, you are passing through a very important training period. Your teachers, parents, and others, are co-operating to fit you for the great contest. Sometimes the sacrifices you are called upon to make seem too great, the discipline too severe, yet only the well trained can win the victory.

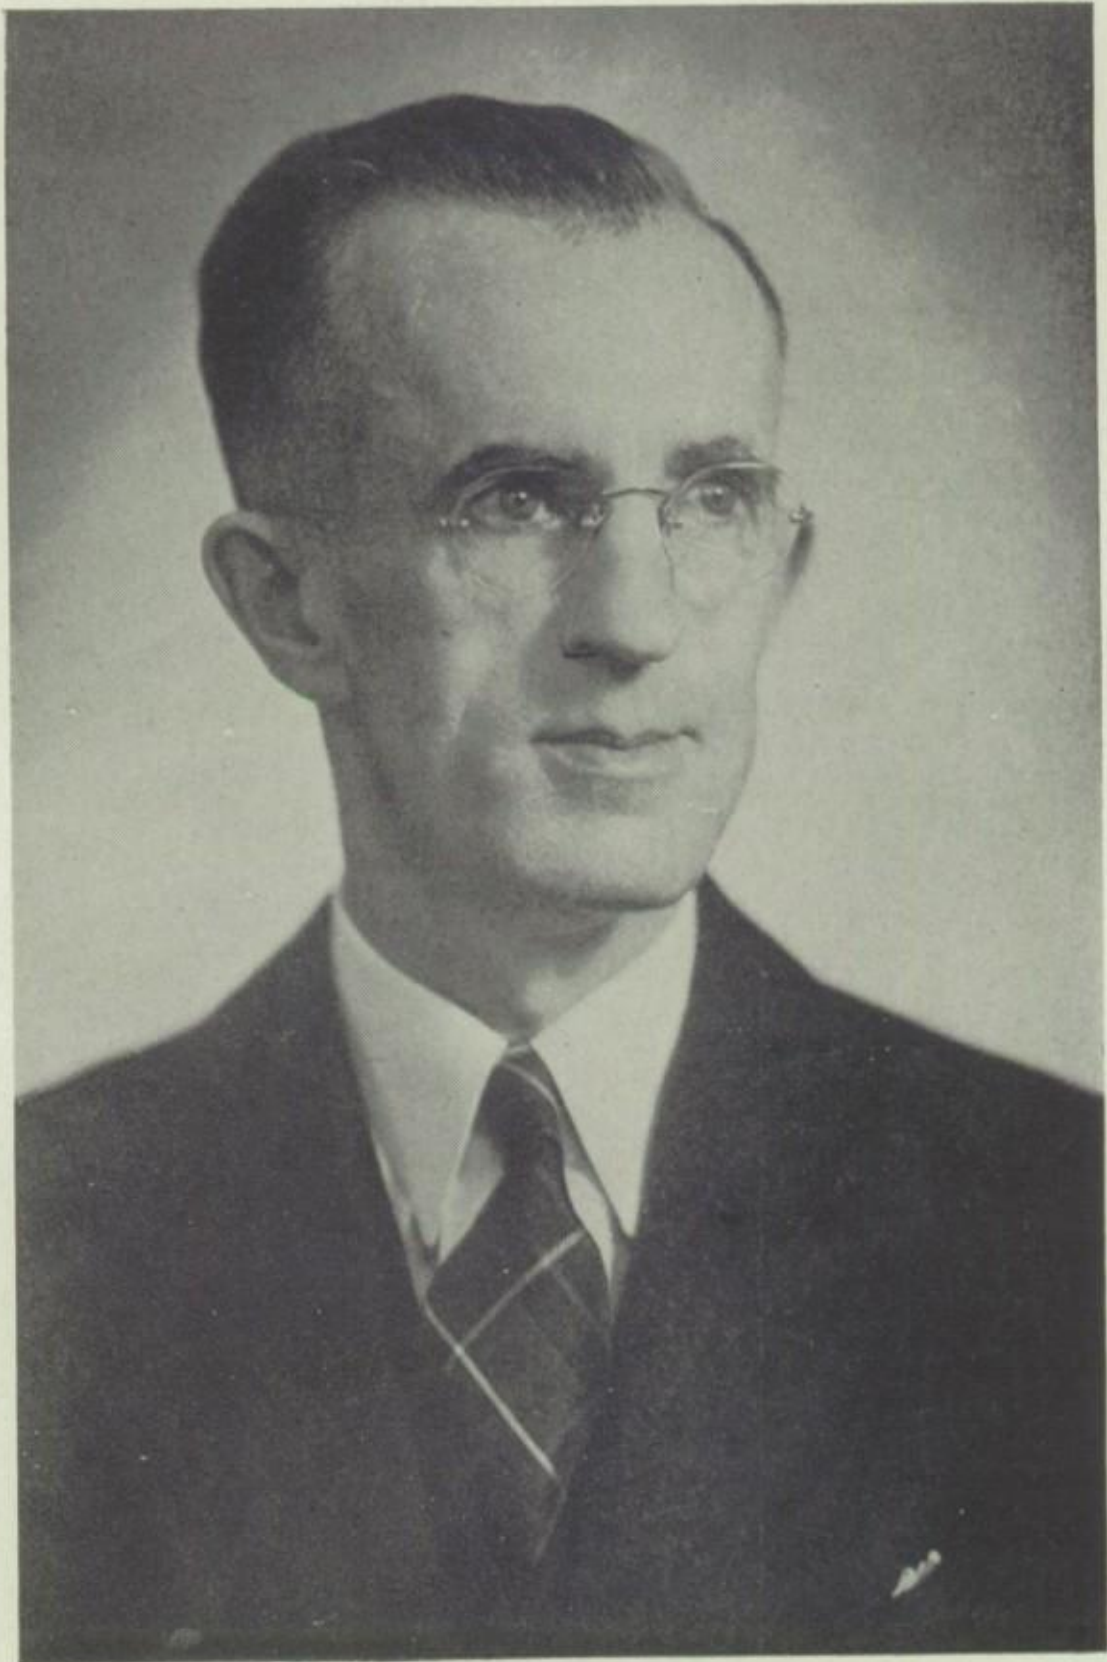

Commander Byrd scored a telling touchdown when he made a successful flight to the South Pole, but he could never have succeeded had he not given strict heed to fitting himself and to preparing carefully for the expedition. One of his biographers wrote, "This great achievement was no accident. Commander Byrd knew the value of training and of preparation."

Another factor, blocking interference, is important in making a touchdown. Thus in life tremendous forces appear in your effort to go forward. You have already felt their impact. Your inability to break up bad habits and questionable associations may cost you the game.

But even blocking interference is not enough. Sometimes the only way to success will be to go right through the line, plugging away persistently and conscientiously. Theodore Roosevelt phrased this thought well when he said, "Hit the line hard. Don't foul. Don't shirk."

His own life was an example of victory well-won by keeping the rules, by overcoming interference and by playing the game with all of his strength. Grantland Rice, another great sportsman, has said of life:

"Let's play it out as if it were a sport
Wherein the game is better than the goal.
So when the battle has been lost or won,
The world at least can say, 'He played the game.'"

ADVERTISERS: Increased cost of labor and materials, and postwar limitations would have shown a serious effect on the 1946 yearbook had it not been for you, our advertisers. You have enabled us to carry on despite the obstacles placed before us in compiling this annual.
